

## **Core Objectives of HBFT Training**

Any Alternative Training Plan submitted for consideration for the Provision of Home Based Family Therapy will clearly demonstrate the acquisition of the following objectives:

- ✓ How participants will understand the unique aspects of home-based family therapy as compared to the provision of therapy in an office based setting.
- ✓ How participants will explore the importance of cultural competence for successful home-based work.
- ✓ How participants will explore the importance of a family centered approach for successful home-based work.
- ✓ How participants will explore the importance of a strengths-based philosophy for successful home-based work.
- ✓ How participants will become competent in adapting their skills and competencies to the home-based context.
- ✓ How participants will explore specific connections between of HBFT and SED.
- ✓ How participants will understand the unique ethical challenges involved in home-based family therapy work.
- ✓ How participants will understand the ethical dimensions of self-care and potential safety issues when providing effective home-based family therapy.
